

FINANCIAL ASSISTANCE POLICY - PLAIN LANGUAGE SUMMARY

CHRISTUS Health's mission is to extend the healing ministry of Jesus Christ. We are committed to helping patients pay for essential hospital and clinic services. The Financial Assistance Policy describes who is eligible for help, what services are covered, and how to apply. This document summarizes that Policy.

You may be eligible for help with your medical bills if you are uninsured and have a low income. Eligible families usually have incomes below 400% of the Federal Poverty Level. In 2026, that was \$132,000 for a family of four. You may also be eligible for discounts if your medical bills exceed 10% of your family's annual income, or if you are receiving certain high dollar high need services.

If you are eligible for help, you will receive discounts on necessary services at CHRISTUS hospitals and CHRISTUS clinics. You may even get free care if your family income is less than 300% of the Federal Poverty Level. If you are eligible for necessary services you receive, CHRISTUS will not bill you more than the amount generally billed to patients who have insurance for those services.

Your family's income and assets will affect your eligibility for discounts. CHRISTUS may use public information and credit scores to decide if you are eligible for help. CHRISTUS may consider what you owe for other bills and your ability to obtain credit. Your family's size and the amount of your medical bills may also be considered. CHRISTUS requires that a person have an active account, scheduled service, or known treatment plan in order to qualify for charity. CHRISTUS also requires that patients and families collaborate with the hospital to ensure that all appropriate funding options are explored, which includes screening for government assistance and seeking care at a facility that is in network with the patient's insurance plan.
